

OTTAWA PARK SUMMIT

APRIL 22, 2017

1 – 5 PM

Join us on Earth Day for this **FREE** event!

This innovative event will bring together people from across the City of Ottawa that are active in their local parks to generate ideas and build momentum for better parks in our great city. This will include keynote speakers on critical issues, discussions among city park staff and community partners, as well as breakout workshops on specific issues such as community gardens, park naturalization and tree planting, and investing in local parks.

Thank you to Park People, Envirocentre, Social Planning Council of Ottawa, OPRIG-Carleton, Centretown Citizens Community Association, Westboro Community Association, Glebe Community Association and Riverview Park Community Association for supporting this event.
