# Ottawa River Clean-up

The Chaudiere to Britannia section of the Ottawa River is the most accessible part of the river in the National Capital Region. In 1998, some concerned citizens noticed the degradation that the usage was beginning to cause and started to help maintain some part of the riverbank.

Now you too can help out!

May 5<sup>th</sup>, we will be joining forces and cleaning up the banks of the river. Contact the NCC at 239-5000 for further details.
