309 Individual Members Listed within those households

2023/24

180 Households Joined

330 Individual Members Listed within those households

Approximate Number of Households in CP is 402

Note:

- ONCA Legislation requires membership list by PERSON, not by household.
- This change was incorporated starting with the 2023/24 online drive.
- Data collection problem is that online membership form is not filled out by everyone, so number of individual members is under-counted
